Drug Fair

RJR 1995 Merchandising Program
Display Location Survey

Store/Number	Recommended Display Location
Englewood #31	We would change Doral display over to FPD, 2nd FPD could go next to Doral Savings Center(2 40pk trays w/sm. sign) Doral display could go behind the counter on the 2nd shelf (not the very top shelf) 2 80 pk trays w/ sm. sign
Oakland #33	Put the 2nd FPD under the Overhead bin (2-40 pk trays w/sm sign)Doral display on shelf behind cash register Doral Savings Center on floor SS?
Wycoff #19	Possibly Gravity fed FPD between leg of Overhead and O/H bin. Cartons need to be more visible (video displays in front)
Ridgewood #20	very tight on space- FPD possibly on top of Doral Carton disp. or a very small counter display.
Verona #11	2nd FPD Possibly floor display in front of cash register or, NSS on top of packs
Fairfield #12	2nd FPD on counter next to chapstick (no problem plenty of room)
Union #16	2nd FPD in front of register towards the end of the counter or on a floor stand next to the cartons
Woodbridge #6	2nd FPD possibly under Overhead bin ornext to it facing the customer. Doral Savings Center in front of cartons where movies are.
Stirling #3	2nd FPD either next to Savings display (we could make doral display smaller) or, under the overhead bin. Doral savings center behind the counter in corner with solid door w/lock & sign.
Berkeley Height	We could count other O/h bin as 2nd FPD for now We NEED to move the movies from blocking the front of the carton rack.

Source: https://www.industrydocuments.ucsf.edu/docs/hmcy0000

Warren #18	2nd FPD tall plastic gravity fed display next to register.or under Overhead bin (40 pk tray) facing register.
Middlesex #4	1 FPD on counter sideways (40-Pk tray) 2nd Fpd on shelf right next to Overhead (80-Pk tray) all Self Service. There is no room for a Doral Savings Center.
Westfield #9	We could fit two Self-Service displays on the counter to the left of the 2nd register or in front of the register on 40-pk trays Doral savings display could go NSS on top of the Doral carton display
Cranford #32	Convert current Doral savings display into 2nd full price display and put our savings display NSS on top of the doral carton display.
Rahway #	Change doral display to 2nd full price display then there is room next to basic display to put a doral display.
South Plainfield #1	Put 2nd FPD under Overhead bin . Doral savings center could go in front of belt (slide chips over) S.S.
Manville #5	2nd FPD under Overhead bin savings display on top of doral carton display.
Hazlet	2nd FPD right next to our Overhead bin on counter
Freehold #7	If we must stay NSS then we could put 2nd FPD on the Backbar next to the doral display. If there is no security problem, 2nd Fpd could go under bin or floorstand in front of cartons closest to register.
Old Bridge # 2	Put 2nd FPD in spot where Doral display is and move Doral display overto the right (on top of gum and candy)plenty room
Matawan # 15	Convert existing Doral display to 2nd FPD . Put Doral Carton display(where ICE for snow is) in front of register facing out , then we put savings display on top of new Doral carton display (There is no room for Doral NSS PK display).
Edison # 8	2nd Fpd SS under O/H bin or if store must be NSS possibly on backbar next to Doral display. (No room for SCPO)
